

CLE Course Description

Current Trends in Trial Strategy & Presentation

Presented by a panel of leading trial consulting experts, this one-hour program will provide practical applications for the use of demonstrative graphics to complement oral presentations. During this program we will review the importance of condensing critical case themes and evidence into easily understandable, highly effective visual formats. This program will also examine the different technologies used to present these visuals at trial.

This presentation will explore:

- The evolution of visual presentation technology at trial.
- Using graphics to summarize voluminous records.
- Advancements in electronic document presentation techniques.
- New methods for witness preparation using graphics.

This is a non-transitional (for experienced attorneys only) CLE program for 1 CLE Credit hour.
